

WE ARE LOOKING FOR A

Node.js Backend Developer (Hybrid)

We are looking for experienced **Node.js** back-end developer to join **Ekspress Grupp** in building and maintaining the largest media portals in Baltics.

Required experience and skills:

- experience with: `Node.js` and `Typescript`
- Familiarity with following keywords:
`GraphQL`, `Docker`, `Eslint`, `Jest`, `MySQL`,
`Redis`, `ElasticSearch`, `S3`, `RabbitMQ`,
`Kubernetes`, `Git(lab)`, `microservices`
- good spoken and written English

Why Ekspress Grupp?

- flat hierarchy and friendly atmosphere, open and honest communication and feedback
- Agile and modern ways of working
- work with the latest technology
- full ownership of your tasks and decisions
- full support for your professional growth
- monthly team events, summer and winter retreat

Here, at Ekspress Grupp:

- your lines of code will be used daily by over 2 million people
- you will be implementing cutting edge architecture and tech stack.
- you will be working with large-scale microservices architecture under high load = big challenge
- you will be part of a very talented team
